

BCTA Communicable Disease Prevention

Masks:

Masks must be worn in all indoor public spaces. This is by order of the BC Public Health Officer as of August 25, 2021.

Illness:

Visitors are asked not to enter any BCTA workplace if they have any symptoms of illness, including cold or flu.

Staff are required to stay home when sick.

Vaccination for all communicable diseases is encouraged.

Hygiene:

Hand washing facilities and hygiene products are supplied for visitors in our workplaces.

Staff use good hygiene practices and disinfect common areas regularly.

Meeting organizers are responsible for disinfecting meeting spaces before and after meetings.

We ensure that our indoor working spaces are well ventilated, and that ventilation equipment is maintained to ensure adequate hygiene in the space.
